OVERVIEW

This audit has been prepared for 'AI Technology' to review the main aspects of the project to help investors make an informative decision during their research process

You will find a summarized review of the following **key points**:

Contract's source code

Owner wallets

Tokenomics

Team transparency and goals

Website's age, code, security and UX

Whitepaper and roadmap

Social media and online presence

General Analysis

Audit Review Process

- 1 Testing the smart contracts against both common and uncommon vulnerabilities
- 2 Assessing the codebase to ensure compliance with current best practices and industry standards
- 3 Ensuring contract logic meets the specifications and intentions of the client
- 4 Cross referencing contract structure and implementation against similar smart contracts produced by industry leaders
- 5 Thorough line-by-line AI review of the entire codebase by industry
